V1

Where would I be without your love
I can't imagine, the thought's too much
How could I stand without your strength
Keeping me steady in your embrace

PRE

Oh the depths that you have walked through just to prove your love for me
And with all I think I know there is so much more to see

CHORUS

Take me deeper, one step closer
Take me further, than I've ever been before
My desire my devotion
All I want is to know your heart

V2

Where could I go, where you're not there
Father you carry me, for all my days
Where could I run, why would I hide
You are the treasure I lose everything to find
